

# Holiday Card Sale

FIESTA4HOPE

## DESCRIPTION

Sale of homemade holiday/birthday cards to be ordered online or in school. Each card is similar to generic store-bought card in the sense that there is room for message writing but different in their low prices and ability to benefit Fiesta.

## STEPS FOR HOW IT WORKS

1

Cards made by club members at meeting(s) or independently to be brought into school if being sold there.

2

If card sale is in December, for example, make cards early in month and sell them before winter break.

3

Sell cards for anywhere from \$3 each, two cards for \$5, or three cards for \$7 (final prices can be determined by club leaders).

## REQUIREMENTS / MATERIALS

- Crafty materials, such as quality paper, markers, pencils, and stickers that will allow for the creation of cards that are visually appealing
- Many contributors willing to make cards and possibly bring in materials needed to make them
- Agreement about which season cards should be sold in, with the most effective choices likely being around the winter holidays or Valentine's Day, all with the addition of birthday cards regardless

## EXPENSES

Money may be spent on craft materials needed to make cards, but steep costs can be avoided through utilization of materials already owned by club members and if there is much participation
